EXPRESS

Includes a file, cuticle oil and polish

CLASSIC

Nails are groomed along with a cuticle tidy, followed by a soothing massage and finished with a polish

LUXURY

A Luxurious treatment which offers intense moisture and extensive cuticle work. Enjoy a warming mask as well as a luscious hot cream soak specially prepared for the hands. Callus removal is also included in the pedicure service

SIGNATURE

OPI, the #1 global salon brand, reinvents the Mani/Pedi with the unique facial skincare quality ingredients in the **ProSpa** nail care range. This treatment primarily focuses on providing unparalleled moisture and anti-ageing effects, whilst preventing the breakdown of collagen and elastin resulting in younger looking hands and feet with the use of white tea extracts.

ASP QUICK DIP

ASP Quick Dip Acrylic Powder is a nail colour system that delivers the newest technology in nail strengthening. This trend setting service is ideal for those who would like the wearability of a soak-off gel and durability of acrylic. An odourless application as well as up to 21 days of vibrant, high gloss colour!

GELISH POLYGEL (Nail Extensions)

Not an acrylic, not a hard gel, Gelish PolyGEL Nail Enhancement combines the best of both in a revolutionary all-in-one system that's undeniably better! Gelish® PolyGel® delivers strong, flexible, feather light nails, that is **odourless** and with **no airborne dust**.

MINX NAIL WRAP

Fashion doesn't stop with your clothes; extend your unique style all the way to your finger tips with Minx! A Professional only product that lasts around 4-8 days on fingers and up to 8 weeks on toes. Also a US patented flexible nail coating that "shrink wraps" to the nails achieving amazing results! - put a pop of pattern or a burst of colour on the tips of your fingers and you feel like you can rule the world. Plus, every Minx design is different from the next, with endless possibilities and combinations.

IBX NAIL TREATMENT (ADD-ON)

An intense treatment used to help nourish and strengthen nails from within the nail bed, activated by heat.
